

## Reflection

How long did the marble stay on the course? Did you time it?

How would you change the design, so it takes more time on the course?  
Illustrate in the space above and then build your design

How does the new design compare to the previous design? Did you make any accessories for the course?

Were you able to create a chain reaction on the floor? If so, How many pieces did you use?  
Draw the chain reaction you created.
